## XOANONS ${ }^{\circledR}$ Dispersing agent

## Model number

XOANONS ${ }^{\circledR}$ WE-D2791

## Specification

Composition Copolymer solution containing polar

|  | groups |
| :--- | :--- |
| Appearance | Slight yellowish clear liquid |
| Solvent | Water |
| Content | $40 \pm 3 \%\left(140^{\circ} \mathrm{C} \quad 2 \mathrm{~h}\right)$ |
| Density | $1.05-1.09 \mathrm{~g} / \mathrm{ml}(25 \pm 1)^{\circ} \mathrm{C}$ |
| Viscosity | $10-60 \mathrm{~s}(\mathrm{Tu}-4$ viscometer $)(25 \pm 0.2)^{\circ} \mathrm{C}$ |
| Flash point | $\geqslant 100^{\circ} \mathrm{C}$ |

Note: This data sheet is intended to give typical results, not standard.Subject to COA.

## Application system

Water-based

## Properties

- VOC free, APEO free.
- Wet and disperse inorganic and organic pigments effectively.
- Good viscosity reduction, improve leveling ability, and increase the pigment content in the mill base.
- Excellent color-rendering ability.
- Suit for multiple water systems.

## Incorporation

Should be incorporated to the mill base before pigments adding.

## Storage stability

Keep intact 24 months in original package.Products beyond the storage period may continue to be used after inspection. The container must be closed immediately after use.

## package

$25 \mathrm{KG} / 200 \mathrm{KG}$

Application recommendation

|  |  | Pigment\&resin | Dosage to pigment\% |
